

NETWATCH PROACTIVE VIDEO MONITORING CAN OFFER MORE THAN 80% COST SAVINGS

Netwatch Proactive Video Monitoring (PVM) provides a comprehensive security solution that overcomes the limitations of other traditional forms of security AND makes financial sense for your business.

Traditional surveillance systems cannot prevent crime, they simply record it. Security guards can intervene when something happens, but typically cover physically large areas and can't immediately get to an incident's location. In contrast, Netwatch PVM visually detects unwanted activity and deters intruders with live personalized audio warnings, while summoning law enforcement to the scene.

Security guards are useful in the protection of a premises, but there are some limiting aspects. The Netwatch service offers:

- Full perimeter patrol at all times
- No intimidation/corruption worries
- Cost effective service

Netwatch Proactive Video Monitoring will protect the perimeter of your business and acts like a security guard, but is watching all areas at all times. It is always alert and doesn't take a break. Our Intervention Specialists are on high alert as soon as any unauthorized activity occurs. From the state of the art monitoring centers they go live to your site and will issue a personalized audio warning to intruders.

We deter crime before it happens.

SECURITY GUARD VS. NETWATCH PVM COST COMPARISON

	Daily	Monthly	Annually
Security Guard Costs 168 hours/week @ \$25/hour	\$600.00	\$18,250	\$219,000
Netwatch PVM Costs 6 PVM Cameras 24/7 (168 hours/week)	\$59.18	\$1,800	\$21,600
Savings	\$540.82	\$16,450	\$197,400

COMPARED TO TRADITIONAL TYPES OF SECURITY NETWATCH PVM OFFERS MANY ADVANTAGES

- **Full site coverage:** Cameras can cover large premises both inside and out, with no gaps in the system.
- **Reliable 24/7 coverage:** Not only is Netwatch PVM hard to disarm (as control is off premises), our monitoring centers are watching the system around the clock, ready to act.
- **Reduction of false alarms:** Our highly trained Intervention Specialists evaluate suspicious activity in real time and issue a live audio warning to deter crime by following your pre-defined protocols.
- **Professional response:** Guards are always at risk of intimidation, threat, injury or even death, which can affect decision-making. Intervention Specialists aren't in harm's way and can respond in a calm manner.
- **Guidance and Assistance:** Netwatch PVM can assist responding authorities in pinpointing the location of intruders.
